

Portland Small Donor Elections

Jon Raymond

Protecting the Viability of the Small Donor in Modern Elections Ben Miller, 2017 In 2010, the Supreme Court decided the landmark case *Citizens United v. FEC*. In its decision, the Court found limitations on corporate spending to be an unconstitutional restriction on the First Amendment's free speech protections. Following *Citizens United*, campaign finance reform efforts have found themselves in a precarious position. Although such efforts have been utilized with varying success since the 1700s, *Citizens United* appeared to roll back progress made on campaign finance reform over the last century. Within the past five years, however, new legislation has been proposed and implemented that attempts to reform the electoral process through alternative financing schemes designed to survive judicial review after *Citizens United*, including small-donor matching programs. A number of local jurisdictions have already begun using small-donor matching programs that aim to remove the influence of big money donors while amplifying the political voice of the average donor. This article examines the emergence of small-donor matching programs and argues that although they face a number of implementation hurdles, these programs are one of the few viable solutions for meaningful reform in the post-*Citizens United* era.

[Small Donors in Congressional Elections](#) Tyler James Culberson, 2014 Candidates raise substantial sums of money to compete in modern federal elections. Many electoral reform efforts focus on curbing the perceived undue influence of campaign donations by the wealthy. An intriguing new reform direction encourages small donor participation. To understand the potential effects of such reforms we utilize new internal Federal Elections Commission campaign finance data to examine patterns of small donor giving to candidates in the 2006 to 2010 congressional elections. We find encouraging small donors may be democratizing by expanding the scope of participation, in that the supply of small donors is unrelated to income levels. Unlike large donors who tend to give to incumbents, small donors give indiscriminately to incumbents, their challengers, and open seat candidates. Small donors give for the instrumental reason to affect the most competitive elections. However, we temper reformers' enthusiasm, finding that ideologically extreme incumbents tend to raise more money from small donors.

Who Donates in Campaigns? David B. Magleby, Jay Goodliffe, Joseph A. Olsen, 2018-10-25 Utilizing surveys of Obama, McCain, and Romney donors, the authors explore the question: who donates to presidential campaigns?

Small Donor Matching Funds Angela Migally, 2010 This report examines the success of New York City's multiple

match public financing system ... Like many public financing systems, the City's provides public money to candidates in exchange for the candidate's acceptance of expenditure limits and enhanced disclosure. However, the heart of the system, and what sets it apart, is the multiple match--a feature that supercharges small donations by matching up to \$175 of each contribution at a six-to-one ratio. As a result, New York City politicians can run for office while raising a significant amount of their money from small donors--Introduction.

Empowering Small Donors in Federal Elections Adam Skaggs, Fred Wertheimer, 2012

Legislation and Elections Code of the City of Portland, Oregon Portland (Or.), University of Oregon. Bureau of Municipal Research and Service, Portland (Or.). Department of Public Safety, 1942

Public Financing in Portland , This CGS report finds that Portland's public campaign finance system has reduced the role of large campaign contributions, decreased overall campaign spending and benefitted from oversight by the Citizens Campaign Commission. On the other hand, candidate participation has been low to date, and some abuses have occurred. As a result, the report recommends that the law be maintained for several additional elections until it can be evaluated more thoroughly.

Small Campaign Donors Laurent Bouton, Julia Cagé, Edgard Dewitte, Vincent Pons, 2022 We study the characteristics and behavior of small campaign donors and compare them to large donors by building a dataset including all the 340 million individual contributions reported to the U.S. Federal Election Commission between 2005 and 2020. Thanks to the reporting requirements of online fundraising platforms first used by Democrats (ActBlue) and now Republicans (WinRed), we observe contribution-level information on the vast majority of small donations. We first show that the number of small donors (donors who do not give more than \$200 to any committee during a two-year electoral cycle) and their total contributions have been growing rapidly. Second, small donors include more women and more ethnic minorities than large donors, but their geographical distribution does not differ much. Third, using a saturated fixed effects model, we find that race closeness, candidate ideological extremeness, whether candidates and donors live in the same district or state, and whether they have the same ethnicity increase contributions, with lower effects for small donors. Finally, we show that campaign TV ads affect the number and size of contributions to congressional candidates, particularly for small donors, indicating that pull factors are relevant to explain their behavior.

Campaign Finance Robert E. Mutch, 2016-07-01 In 2015, well over half of the money contributed to the presidential race came from roughly 350 families. The 100 biggest donors gave as much as 2 million small donors combined. Can we still say we live in a democracy if a few hundred rich families provide a disproportionate shares of campaign funds? Congress and the courts are divided on that question, with conservatives saying yes and liberals saying no. The debate is about the most fundamental of political questions: how we define democracy and how we want our democracy to work. The debate may

ultimately be about political theory, but in practice it is conducted in terms of laws, regulations, and court decisions about super PACs, 527s, 501(c)(4)s, dark money, small donors, public funding, corporate contributions, the Federal Election Commission, and the IRS. Campaign Finance: What Everyone Needs to Know® explains those laws, regulations, and Supreme Court decisions, from Buckley v. Valeo to Citizens United, asking how they fit into the larger discussion about how we want our democracy to work.

Strengthening Forensic Science in the United States National Research Council, Division on Engineering and Physical Sciences, Committee on Applied and Theoretical Statistics, Policy and Global Affairs, Committee on Science, Technology, and Law, Committee on Identifying the Needs of the Forensic Sciences Community, 2009-07-29 Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

Freebird Jon Raymond, 2018-01-23 *Freebird* is such a timely book. considering the current deep divisions between right and left. A new classic for the collapsing political landscape of America.--Kim Gordon, author of *Girl in a Band* The Singers, an all-American family in the California style, are about to lose everything. Anne is a bureaucrat in the Los Angeles Office of Sustainability whose ideals are compromised by a proposal from a venture capitalist seeking to privatize the city's wastewater. Her brother, Ben, a former Navy SEAL, returns from Afghanistan disillusioned and struggling with PTSD, and starts down a path toward a radical act of violence. And Anne's teenage son, Aaron, can't decide if he should go to college or pitch it all and hit the road. They all live inside the long shadow of the Singer patriarch Grandpa Sam, whose untold experience of the Holocaust shapes his family's moral character to the core. Jon Raymond, screenwriter of the acclaimed films *Meek's Cutoff* and *Night Moves*, combines these narrative threads into a hard-driving story of one family's moral crisis.

In *Freebird*, Raymond delivers a brilliant, searching novel about death and politics in America today, revealing how the fates of our families are irrevocably tied to the currents of history.

A Look at H.R. 1826, and the Public Financing of Congressional Campaigns United States. Congress. House. Committee on House Administration, 2009

Voting with Dollars Bruce Ackerman, Ian Ayres, 2008-10-01
In this provocative book, two leading law professors challenge the existing campaign reform agenda and present a new initiative that avoids the mistakes of the past. Bruce Ackerman and Ian Ayres build on the example of the secret ballot and propose a system of “secret donation booths” for campaign contributions. They unveil a plan in which the government provides each voter with a special credit card account containing fifty “Patriot dollars” for presidential elections. To use this money, citizens go to their local ATM machine and anonymously send their Patriot dollars to their favorite candidates or political organizations. Americans are free to make additional contributions, but they must also give these gifts anonymously. Because candidates cannot identify who provided the funds, it will be much harder for big contributors to buy political influence. And the need for politicians to compete for the Patriot dollars will give much more power to the people. Ackerman and Ayres work out the operating details of their plan, anticipate problems, design safeguards, suggest overseers, and show how their proposals satisfy the most stringent constitutional requirements. They conclude with a model statute that could serve as the basis of a serious congressional effort to restore Americans’ faith in democratic politics./DIV/DIV

Herding Donkeys Ari Berman, 2010-09-28
After the 2004 election, the Republican Party held the White House, both houses of Congress, twenty-eight governorships, and a majority of state legislatures. One-party rule, it seemed, was here to stay. *Herding Donkeys* tells the improbable tale of the grassroots resurgence that transformed the Democratic Party from a lonely minority to a sizable majority. It chronicles the inside story of Howard Dean's visionary yet deeply controversial fifty-state strategy, charting his unpredictable journey from insurgent presidential candidate, to front-running flameout, to chairman and conscience of the Democratic Party in an unexpected third act. Ari Berman reveals how the Obama campaign built upon Dean's strategy when others ridiculed it, expanding the ranks of the party and ultimately laying the groundwork for Obama's historic electoral victory—but also sowing the seeds of dissent that would lead to legislative stalemate and intraparty strife. Revelatory and entertaining, in the vein of Timothy Crouse's *The Boys on the Bus* and Rick Perlstein's *Nixonland*, *Herding Donkeys* combines fresh reportage with a rich and colorful cast of characters. It captures the untold stories of the people and places that reshaped the electoral map, painting a vivid portrait of a shifting country while dissecting the possibility and peril of a new era in American politics.

Campaign Finance and Political Polarization Raymond J. La Raja, Brian F. Schaffner, 2015-10-06 An illuminating perspective on the polarizing effects of campaign finance reform

Democracy by the People Eugene D. Mazo, Timothy K. Kuhner, 2018-11-29 Thanks to a series of recent US Supreme Court decisions, corporations can now spend unlimited sums to influence elections, Super PACs and dark money groups are flourishing, and wealthy individuals and special interests increasingly dominate American politics. Despite the overwhelming support of Americans to fix this broken system, serious efforts at reform have languished. Campaign finance is a highly intricate and complex area of the law, and the current system favors the incumbent politicians who oversee it. This illuminating book takes these hard realities as a starting point and offers realistic solutions to reform campaign finance. With contributions from more than a dozen leading scholars of election law, it should be read by anyone interested in reclaiming the promise of American democracy.

Social Change Anytime Everywhere Allyson Kapin, Amy Sample Ward, 2013-02-26 Strategies for advocacy, fundraising, and engaging the community Social Change Anytime Everywhere was written for nonprofit staff who say themselves or are asked by others, "Email communications, social media, and mobile are important, but how will they help our nonprofit and the issues we work on? Most importantly, how the heck do we integrate and utilize these tools successfully?" The book will help answer these questions, and is organized to guide readers through the planning and implementation of online multi-channel strategies that will spark advocacy, raise money and promote deeper community engagement in order to achieve social change in real time. It also serves as a resource to help nonprofit staff and their boards quickly understand the evolving online landscape and identify and implement the best online channels, strategies, tools, and tactics to help their organizations achieve their missions.

Gender and Elections Susan J. Carroll, Richard L. Fox, 2013-12-23 The third edition of Gender and Elections offers a systematic, lively, and multifaceted account of the role of gender in the electoral process through the 2012 elections. This timely yet enduring volume strikes a balance between highlighting the most important developments for women as voters and candidates in the 2012 elections and providing a more long-term, in-depth analysis of the ways that gender has helped

shape the contours and outcomes of electoral politics in the United States. Individual chapters demonstrate the importance of gender in understanding and interpreting presidential elections, presidential and vice-presidential candidacies, voter participation and turnout, voting choices, congressional elections, the political involvement of Latinas, the participation of African American women, the support of political parties and women's organizations, candidate communications with voters, and state elections. Without question, Gender and Elections is the most comprehensive, reliable, and trustworthy resource on the role of gender in US electoral politics.

Political party finance Committee on Standards in Public Life, 2011-11-22 The Committee on Standards in Public Life spent a year looking at party political finance. The majority report believes that the only safe way to remove big money from party funding is to put a cap on donations from all sources, individuals and organisations, of £10,000 in any one year. Trade union affiliation fees could be regarded as a collection of individual donations providing the members individually opt-in to the fee. The cap would have a significant impact on the income of the major parties, and would inevitably require a compensating increase in support for parties from public funds. The public funding should depend on the number of votes secured in the previous election, at the rate of £3.00 a vote in Westminster elections and £1.50 a vote in devolved and European elections. This proposal would result in an annual support amount of some £23 million, equivalent to about 50p per elector per year. Income tax relief, similar to Gift Aid, should be available on donations of up to £1000 and on membership fees to political parties. Another main recommendation, among the 24 in the report, is that the existing limits on campaign spending in the period before an election should be cut by the order of 15 per cent. The proposals will create challenges for the Electoral Commission, and the Committee suggests the recommendations are implemented in time for the start of the next Parliament in 2015. Two members representing political parties dissented from some of the recommendations.
