The Musical Child Alden C B, 2023-08-03 Have a musical genius on your hands? This book will help! Growing up as a musical child is a difficult journey, and it can be difficult to know what to do with a child who has so many musical gifts and tendencies. In this guide, I've shared the tips and tricks I've picked up along the way from being a child musician myself to now being a graduate student and teacher in music composition. *The Musical Child* is a comprehensive guide for parents, educators, and mentors on how to identify and nurture the musical talents of young musicians. Whether your child is a budding musician or composer (or both!), this book offers practical advice on how to create an environment that fosters creativity, discipline, and growth. From choosing the right instruments and teachers to developing a personalized practice routine, this guide provides essential tools for supporting the musical journey of gifted children. Don't miss out on the opportunity to unlock your child's full musical potential!

Sound Choices Wilma Machover, Marienne Uszler, 1996 This guide should be of interest to parents whose children study, or are considering studying an instrument, or taking music lessons. It should also be of use to music teachers.

Music and the Young Mind Maureen Harris, 2009-04-16 Maureen Harris has written an early childhood music program that is easily incorporated into the classroom routine. Written for the early childhood educator-experienced or trainee, musician or nonmusician, this book describes a music-enriched environment for teaching the whole child. Now educators can put research into practice and benefit from the wealth of knowledge and research acquired over the centuries on the power of music. With easy-to-follow lesson plans, sing-along CDs (sung in a suitable pitch for the young child), and supporting literature, educators can gain musical confidence as they explore research on child development, learn how to create a music-enriched environment and build musical confidence, see a curriculum time-frame, and follow lesson plans with ideas for further musical creativity and exploration. In addition, the multicultural section shows how to set up an early childhood

music setting that maximizes the benefits of a variety of cultural values and practices. As you read this book you will begin to see music as a biological human need, an incredible vehicle for enhancing intelligence, and a means to connecting and uniting people around the world.

Your Musical Child Jessica Baron Turner,2004 (String Letter Publishing). What makes a child fall in love with learning to play music? How does talent develop? When is the right time to start lessons? Which instrument is the best fit? Why is practice so challenging and what can parents do to keep kids musically motivated? Where can a parent learn about music programs, camps, books, recordings, and other important resources? This groundbreaking book answers these questions and many others, serving up healthy portions of insight, humor, research, practical advice, fresh ideas and heartfelt encouragement for making the most of musical development from pregnancy through the elementary years. It provides everything parents need to nurture children so they may begin to discover their own unique voices. If one book can keep kids from quitting, this is it! This book will help you find a new relationship with your child, and perhaps, yourself ... It's never too late. Graham Nash

52 Things Kids Need from a Dad Jay Payleitner,2020-01-01 “God, please help me...another game of Candy Land...”

Quite a few dads spend time with their kids. However, many have no clue what their kids really need. Enter author Jay Payleitner, veteran dad of five, who’s also struggled with how to build up his children’s lives. His 52 Things Kids Need from a Dad combines straightforward features with step-up-to-the-mark challenges men will appreciate: a full year’s worth of focused, doable ideas—one per week, if desired uncomplicated ways to be an example, like “kiss your wife in the kitchen” tough, frank advice, like “throw away your porn” And, refreshingly... NO exhaustive (and exhausting) lists of “things you should do” NO criticism of dads for being men and acting like men Dads will feel respected and empowered, and gain confidence to initiate activities that build lifelong positives into their kids. Great gift or men’s group resource!

Parenting Gifted Kids James Delisle,2021-09-03 A gifted education Legacy Award winner, Parenting Gifted Kids: Tips for Raising Happy and Successful Children provides a humorous, engaging, and encouraging look at raising gifted children today. James R. Delisle, Ph.D., offers practical, down-to-earth advice that will cause parents to reexamine the ways they perceive and relate to their children. Dr. Delisle puts forward 10 tips to parents of gifted children—ideas that reflect attitude and approach and allow for introspection and change, rather than quick, do-it-tonight solutions. Some topics of interest include understanding a child's giftedness, working with the school system, dealing with perfectionism in gifted kids, and being adult role models for children. Along the way, stories from gifted children and their parents provide insight into the lives of these individuals. What sets this book apart from other books for parents of gifted kids is its expansion beyond mere platitudes. Dr. Delisle's tips go beyond the basics, focusing on attitude, reflection, and subtle changes, rather than specific, cookie-cutter recipes for action. The 10 tips suggested and expanded upon in this book include: understanding what giftedness is . . . and what it is not; understanding the differences between gifted kids and their agemates; understanding the personality traits of gifted kids, including overexcitabilities; taking charge of your child's education; understanding the issue of perfectionism in gifted kids; examining social nuances and myths related to giftedness; examining the similarities parents share with their gifted children; setting reasonable goals; helping gifted children make a difference in the lives of others; and remembering that gifted children are kids first and gifted second.
