Zina in Islam Zainab Yahaya,2018-05-12 The spread of zina in our societies and the easy access to it entail the need on us to create channels of awareness of its dangers and implications by way of sharing knowledge on some preventive measures and consequences. Zina in our societies have become a thing of pride as both men and women of our generation, whether old or young parade themselves so openly to committing zina.The Almighty Allah says in Surah Al Isra' verse 17:32, Nor come nigh to adultery: for it is a shameful (deed) and an evil, opening the road (to other evils).

Zina In Islam Zubairu Dalhatu Malami,2023-02-25 Zina in Islam is a book that delves into the complex and often controversial topic of zina, or extramarital sex, in the context of Islamic law and ethics. In this book, readers will find a comprehensive exploration of the Islamic perspective on zina, including its definition, various forms, and the legal and ethical implications associated with it. The author provides a detailed analysis of the relevant Quranic verses and hadiths related to zina, and discusses the different interpretations and applications of these texts across various Islamic schools of thought. The book also addresses contemporary issues related to zina, such as premarital sex, adultery, and the effects of pornography on individuals and society. Through this book, readers will gain a deeper understanding of the Islamic view on zina and its consequences, as well as its place in the broader context of Islamic ethics and morality. Whether you are a student of Islamic studies, a researcher, or simply interested in learning more about this important topic, Zina in Islam is a must-read book that offers a unique perspective on a critical issue in contemporary Muslim societies.

Crimes and Punishments Under Islamic Law Yahaya Yunusa Bambale,2003 This is an apt publication for modern times, in which 'Sharia' has become a byword for an unacceptable social system, and is vilified as such; when crime is rife in communities governed by Sharia; and when in the non-Islamic West, the Islamic social and criminal justice systems are subject to intense public scrutiny and criticism, but remain little understood. The author presents a clear and factual account of the Islamic criminal justice system, expounding what he considers to be the real issues of Sharia, often ignored or misrepresented by both Islamic and Western scholars, and explaining its wider Islamic context and ethics, its Arabic roots, classical heritage and terminology, and its relevance to contemporary Muslim societies. Contents: concept of crime; features of Islamic criminal liability; defences to Islamic criminal liability; 'Hudud' crimes; 'Zina' - adultery or fornication; 'Qadhf' - slander or false accusation; 'Hadd' offence of 'al-sariqa' - theft; 'Hadd' offence of 'shurbul khamr' - wine drinking; 'Hiraba' - brigandage or highway armed robbery; 'Riddah' - apostasy; 'Baghye' - rebellion or treason; 'Qisas - retaliation; 'Ta'azir' punishment.

Impact of Islamic Penal Laws on the Traditional Arab Society Ali Akram Khan Sherwani,1993 The book examines the impact of Islamic Penal Laws on the traditional Arab Society. Using the Holy Quran as its primary source, the book selects such verses which pertain to a number of socio-economic crimes prevalent in the pagan Arab Society. It, then, carefully analyses the basic logic of these verses and draws distinction between such notions as crime and sin, rights of God and rights of man, etc.

PENAL LAW OF ISLAM M.I.Siddiqui,2003

The Qur'an, Morality and Critical Reason Muhammad Shahrur,2009-03-15 This book presents the work and ideas of the Syrian writer Muhammad Shahrur to the English-speaking world. Shahrur is at the moment the most innovative

intellectual thinker in the Arab Middle East. Often described as the 'Martin Luther of Islam,' he offers a liberal, progressive reading of Islam that aims to counter the influences of religious fundamentalism and radical politics. Shahrur's innovative interpretation of the Qur'an offers groundbreaking new ideas, based on his conviction that centuries of historical Islam, including scholarship in the traditional Islamic religious sciences, have obscured or even obliterated the Qur'an's progressive and revolutionary message. That message is one that has endured through each period of human history in which Islam has existed, encouraging Muslims to apply the most contemporary perspective available to interpret the Qur'an's meaning.

Heart Softeners Shaykh Muhammad Ibn Salih Al-Uthaymeen, 2018-11 In the name of Allah, the Most Merciful and Most Compassionate. Praise to the One Who completed this religion and sent guidance through His Messenger salAllahu 'alayhi wa sallam. To begin: Every so often our daily lives preoccupy us and turn us away from Allah's promise. When we walk out of our homes, turn on the radio, TV, or Internet, we are distracted by the evils we see and hear. As result of immorality and unashamed disobedience, our hearts grow hard and distant from Allah and His Messenger's call. We know the message of Islam is true, but we are weak due to the rigidity of our heart, spirit and mind. In times like these, we need something to penetrate that stiffness. We need a remedy to soften that hardness and the inflexibility of our choices. Disunity and harshness afflicts this Ummah today. Consequently, many people have turned away from brotherhood, caring, and even Islam itself. Their hearts have transformed into dwellings of complete hatred for a sinner, disdain toward the weak Muslim, and jealousy of their successful brother or sister. I have selected some ahaadeeth from the most authentic book after the Qur'aan to soften the hearts in our chests. I used Shaykh Muhammad ibn Saalih Al-'Uthaymeen's explanations for the ahaadeeth selected. The ahaadeeth selected come from a book in Imam Al-Bukhari's collection titled Riqaq: Heart Softeners. This chapter brings tears to one's eyes, fear to one's mind, and most importantly it diminishes the rigidity in one's heart. I ask Allah to make the translation and compilation solely for His pleasure. I pray to Allah for acceptance of this deed and His mercy in the Hereafter. Sexual Violation in Islamic Law Hina Azam, 2015-06-26 Centered on legal discourses of Islam's first six centuries, this book analyzes juristic writings on the topic of rape.

The Oxford Handbook of Criminal Law Markus D Dubber, Tatjana Hörnle, 2014-11-27 The Oxford Handbook of Criminal Law reflects the continued transformation of criminal law into a global discipline, providing scholars with a comprehensive international resource, a common point of entry into cutting edge contemporary research and a snapshot of the state and scope of the field. To this end, the Handbook takes a broad approach to its subject matter, disciplinarily, geographically, and systematically. Its contributors include current and future research leaders representing a variety of legal systems, methodologies, areas of expertise, and research agendas. The Handbook is divided into four parts: Approaches & Methods (I), Systems & Methods (II), Aspects & Issues (III), and Contexts & Comparisons (IV). Part I includes essays exploring various

methodological approaches to criminal law (such as criminology, feminist studies, and history). Part II provides an overview of systems or models of criminal law, laying the foundation for further inquiry into specific conceptions of criminal law as well as for comparative analysis (such as Islamic, Marxist, and military law). Part III covers the three aspects of the penal process: the definition of norms and principles of liability (substantive criminal law), along with a less detailed treatment of the imposition of norms (criminal procedure) and the infliction of sanctions (prison law). Contributors consider the basic topics traditionally addressed in scholarship on the general and special parts of the substantive criminal law (such as jurisdiction, mens rea, justifications, and excuses). Part IV places criminal law in context, both domestically and transnationally, by exploring the contrasts between criminal law and other species of law and state power and by investigating criminal law's place in the projects of comparative law, transnational, and international law.

Zina, Transnational Feminism, and the Moral Regulation of Pakistani Women Shahnaz Khan, 2011-11-01 The Zina Ordinance is part of the Hadd Ordinances that were promulgated in 1979 by the military dictator General Zia-ul-Haq, a self-proclaimed president of Pakistan. Since then, tens of thousands of Pakistani women have been charged and incarcerated under the ordinance, which governs illicit sex. Although most of these women are subsequently released for lack of evidence, they spend months or years in jail before trial. To date, these laws still remain in effect, despite international calls for their repeal. Over a five-year-period, Shahnaz Khan interviewed women incarcerated under the zina laws in Pakistan. She argues that the zina laws help situate morality within the individual, thus de-emphasizing the prevalence of societal injustice. She also examines the production and reception of knowledge in the west about women in the third world, identifying a productive tension between living in the west and doing research in the third world. She concludes that transnational feminist solidarity can help women identify the linkages between the local and global and challenge oppressive practices internationally. This analysis will appeal to scholars and students of gender, law, human rights, and Islamic/Middle Eastern studies.
