*Airport analysis manual* Air Europa Líneas Aéreas,2000

*Boeing 737-300 to -800* Robbie Shaw,1999 The sixth in this series of illustrated monographs on the key civil aircraft of today: this volume focuses on the Boeing 737-300/700. It examines the design, production and in-service record of the plane, and details airline customers and aircraft attrition, as well as a full production list.

*Airline Competition: Deregulation's Mixed Legacy* George Williams,2017-07-05 The advantages of airline competition to consumers are clearly apparent. Lower fares, greater choice, more frequent flights and a wider range of available services have all been evident when the entry of a new competitor has occurred. In many instances however, after an initial, relatively short-lived, period of aggressive competition the new entrant has either gone bankrupt or found a less stressful existence co-operating in some manner with the incumbent. In this wide-ranging book, the author looks at the competitive arena in the post-regulation era and especially focusses on deregulation's legacy; globalization in a bilateral world breaking the link between nationality and airlines. The book is of special interest to those members engaged in the Airline Industry, Regulatory Authorities and Government Departments of Transport and Industry. It will be of value to academic specialists in transport economics and public policy; MSc students and Institutes of Transport; pressure groups and the Travel and Tourism Industry.

**The Lost Testament** James Becker,2013-12-03 FROM THE PUBLISHERS THAT BROUGHT YOU DAN BROWN For thousands of years we guarded it. But now it has been found. This could be the end – for us; for our organisation; for the world. You must destroy it, and those who have taken it. An ancient object is discovered in a Cairo souk. Hours later, the market trader who sold it is tortured to death. As the bodies begin to pile up, a request for help is sent to British Museum historian Angela Lewis. Angela travels to Spain with her ex-husband, undercover police officer Chris Bronson. There they discover the key to the greatest secret in the history of Christianity. Their only problem is deciphering it before they are brutally murdered like those before them...

*ABC Civil Airliner Recognition* Peter R. March, 1999 Sixth revised and re-illustrated edition of this pocket reference brings the contemporary airliner scene right up to date with the latest variants and models. It reflects the recent purchase of McDonnell Douglas's airliner business by Boeing and the continued development of the Airbus range.
