The Routledge Handbook of Urban Resilience Michael A. Burayidi, Adriana Allen, John Twigg, Christine Wamsler, 2019-11-27 This volume provides a comprehensive discussion and overview of urban resilience, including socio-ecological and economic hazard and disaster resilience. It provides a summary of state of the art thinking on resilience, the different approaches, tools and methodologies for understanding the subject in urban contexts, and brings together related reflections and initiatives. Throughout the different chapters, the handbook critically examines and reviews the resilience concept from various disciplinary and professional perspectives. It also discusses major urban crises, past and recent, and the generic lessons they provide for resilience. In this context, the authors provide case studies from different places and times, including historical material and contemporary examples, and studies that offer concrete guidance on how to approach urban resilience. Other chapters focus on how current understanding of urban systems – such as shrinking cities, green infrastructure, disaster volunteerism, and urban energy systems – are affecting the capacity of urban citizens, settlements and nation-states to respond to different forms and levels of stressors and shocks. The handbook concludes with a synthesis of the state of the art knowledge on resilience and points the way forward in refining the conceptualization and application of urban resilience. The book is intended for scholars and graduate students in urban studies, environmental and sustainability studies, geography, planning, architecture, urban design, political science and sociology, for whom it will provide an invaluable and up-to-date guide to current approaches across these disciplines that converge in the study of urban resilience. The book also provides important direction to practitioners and civic leaders who are engaged in supporting cities and regions to position themselves for resilience in the face of climate change, unpredictable socioenvironmental shocks and incremental risk accumulation.

Sustainable Luxury Miguel Angel Gardetti, Ana Laura Torres, 2017-09-08 Most consumers of luxury products and services use them as status symbols – symbols of success. However, the definition of success – and the way it is perceived by others – is changing. Increasingly, consumers want the brands they use to address growing concerns that luxury products invariably come at a heavy social and environmental cost. The luxury industry faces its biggest challenge yet in satisfying an emerging

demand of successful consumerism - products that meet high environmental, social and ethical standards. This collection sees internationally renowned fashion, luxury and sustainability experts come together to explore the challenges faced - and solutions developed - by luxury goods companies in sourcing, producing and marketing luxury products. *Sustainable Luxury: Managing Social and Environmental Performance in Iconic Brands* represents the most comprehensive collection of current writing on the nascent relationship between sustainability and luxury. It will be essential reading for academics researching sustainable development in the fashion and luxury industries and it will provide invaluable guidance for practitioners seeking the latest research to help them meet consumer demand for sustainable goods and services.

Sustainable Luxury Miguel Angel Gardetti, Subramanian Senthilkannan Muthu, 2018-06-16 This book highlights ten cases of entrepreneurship that - in the context of circular economy - have redefined the paradigm of luxury and the notion of exclusivity that it requires. It shows how, by using technology and a new consumption model, the ten companies have created novel business models for luxury, and more intelligent forms of use better-suited to modern times.

The View from Castle Rock Alice Munro, 2006-11-07 WINNER OF THE NOBEL PRIZE® IN LITERATURE 2013 Alice Munro mines her rich family background, melding it with her own experiences and the transforming power of her brilliant imagination, to create perhaps her most powerful and personal collection yet. A young boy, taken to Edinburgh's Castle Rock to look across the sea to America, catches a glimpse of his father's dream. Scottish immigrants experience love and loss on a journey that leads them to rural Ontario. Wives, mothers, fathers, and children move through uncertainty, ambivalence, and contemplation in these stories of hopes, adversity, and wonder. *The View from Castle Rock* reveals what is most essential in Munro's art: her passionate understanding of ordinary lives.

Christus Vivit Pope Francis,2019-04-04 To young Christians of the world, Pope Francis has a message for you: Christ is alive, and he wants you to be alive! In his fourth apostolic exhortation, *Christus Vivit*, Pope Francis encapsulates the work of the 2018 synod of bishops on Young People, The Faith, and Vocational Discernment. Pope Francis has always had a special relationship with young people, and in his fatherly love for you he shows that: You can relate to young people in Scripture who made a difference You identify with the Christ who is always young You face difficult issues in the world today You yearn for the truth of the Gospel You are capable of amazing things when you respond to the Gospel You learn and grow with help from the faithful of all generations You need bold and creative youth ministry You can discover who God made you to be You are urged to pray for discernment *Christus Vivit* is written for and to young people, but Pope Francis also wrote it for the entire Church, because, as he says, reflecting on our young people inspires us all. May the Holy Spirit urge you on as you run this race. The Church needs your momentum, your intuitions, your faith. We need them! And when you arrive where we have not yet reached, have the patience to wait for us.
