Versed Rae Armantrout, 2010-08 A collection of poetry organized in two sections. The first section, *Versed*, play with vice and versa, the perversity of human consciousness. They flirt with error and delusion, skating on a thin ice that inevitably cracks. The second section, *Dark Matter*, alludes to more than the unseen substance thought to make up the majority of mass in the universe. The invisible and unknowable are confronted directly as the author's experience with cancer marks these poems with a new austerity, shot through with her signature wit and stark unsentimental thinking.--Résumé de l'éditeur.

Alcohol and Tobacco Otto-Michael Lesch, Henriette Walter, Christian Wetschka, Michie Hesselbrock, Victor Hesselbrock, 2011-01-15 Alcohol and nicotine addiction mostly occur together. Over the last ten years therapeutic aspects and motivational strategies have been considerably improved. Hence, groups and subgroups have been defined and can be treated with specific medication and tailor-made psychotherapies, leading in the long term to considerably better and more effective results than the once broadly applied, rigorous abstinence -based therapies. However, alcohol and nicotine addiction still represent major medical and social problems. In this book, new therapeutic approaches are comprehensively described, outlining the different interactions between personality, environment and the effects of the substance. In addition to prevention-based therapies and diagnosis, essential psychological and sociological strategies, as well as medication-based

therapies, are also presented in detail. All of these therapies have realistic aims and are of global validity. In addition, the book provides a broad overview of the American and European epidemiology of alcohol and nicotine addictions. The book is written for all those who care for and offer professional therapy for alcohol and nicotine-addicted patients.
