Rawson, 2019-02-07 This Handbook reviews a wealth of research in cognitive and educational psychology that investigates how to enhance learning and instruction to aid students struggling to learn and to advise teachers on how best to support student learning. The Handbook includes features that inform readers about how to improve instruction and student achievement based on scientific evidence across different domains, including science, mathematics, reading and writing. Each chapter supplies a description of the learning goal, a balanced presentation of the current evidence about the efficacy of various approaches to obtaining that learning goal, and a discussion of important future directions for research in this area. It is the ideal resource for researchers continuing their study of this field or for those only now beginning to explore how to improve student achievement.

Wage and Hour Law Chester Hanvey, 2018-04-18 This practical guide offers management, psychology, and related professionals comprehensive background in—and robust methods for evaluating—frequently litigated wage and hour issues. Wage and hour compliance is impacted by numerous sources including federal laws such as the Fair Labor Standards Act, state and local laws, guidance from government enforcement agencies and court decisions. This book provides a clear and understandable overview of the legal context along with methods for data collection and analysis to measure and evaluate compliance pertaining to commonly litigated disputes, such as independent contract classification, FLSA exemptions, pay

equity, and off-the-clock work. This framework for understanding and responding to such cases is suitable to both those new to the field and expert consultants while also acting as a springboard for further research in this increasingly relevant legal area. Included in the coverage: · Trends in wage and hour litigation. · Applicable data collection methods for evaluating wage and hour compliance. · Assessing employment status. · Strategies to measure and prevent off the clock work. · Factors that impact meal and rest break compliance. · Stages of a class-action lawsuit. · Statistical sampling and analyses. ·

Understanding and analyzing pay equity. Wage and Hour Law: Guide to Methods and Analysis fills knowledge needs for an audience that includes management and industrial/organizational psychology graduate students interested in legal issues as well as testifying experts, external consultants, HR practitioners, management professionals, and labor economists.

**Educating Lawyers** William M. Sullivan, Anne Colby, Judith Welch Wegner, Lloyd Bond, Lee S. Shulman, 2007-03-09 The Challenge of Educating Lawyers This volume, under the presidency of Lee Shulman, is intended primarily to foster appreciation for what legal education does at its best. We want to encourage more informed scholarship and imaginative dialogue about teaching and learning for the law at all organizational levels: in individual law schools, in the academic associations, in the profession itself. We also believe our findings will be of interest within the academy beyond the professional schools, as well as among that public concerned with higher education and the promotion of professional excellence. --From the Introduction Educating Lawyers is no doubt the best work on the analysis and reform of legal education that I have ever read. There is a call for deep changes in the way law is taught, and I believe that it will be a landmark in the history of legal education. --Bryant G. Garth, dean and professor of law, Southwestern Law School and former director of the American Bar Foundation Educating Lawyers succeeds admirably in describing the educational programs at virtually every American law school. The call for the integration of the three apprenticeships seems to me exactly what is needed to make legal education more 'professional,' to prepare law students better for the practice of law, and to address societal expectations of lawyers. --Stephen Wizner, dean of faculty, William O. Douglas Clinical Professor of Law, Yale Law School
