Useful Enemies Noel Malcolm,2019-05-02 From the fall of Constantinople in 1453 until the eighteenth century, many Western European writers viewed the Ottoman Empire with almost obsessive interest. Typically they reacted to it with fear and distrust; and such feelings were reinforced by the deep hostility of Western Christendom towards Islam. Yet there was also much curiosity about the social and political system on which the huge power of the sultans was based. In the sixteenth century, especially, when Ottoman territorial expansion was rapid and Ottoman institutions seemed particularly robust, there was even open admiration. In this path-breaking book Noel Malcolm ranges through these vital centuries of East-West interaction, studying all the ways in which thinkers in the West interpreted the Ottoman Empire as a political phenomenon - and Islam as a political religion. *Useful Enemies* shows how the concept of 'oriental despotism' began as an attempt to turn the tables on a very positive analysis of Ottoman state power, and how, as it developed, it interacted with Western debates about monarchy and government. Noel Malcolm also shows how a negative portrayal of Islam as a religion devised for political purposes was assimilated by radical writers, who extended the criticism to all religions, including Christianity itself. Examining the works of many famous thinkers (including Machiavelli, Bodin, and Montesquieu) and many less well-known ones, *Useful Enemies* illuminates the long-term development of Western ideas about the Ottomans, and about Islam. Noel Malcolm shows how these ideas became intertwined with internal Western debates about power, religion, society, and war. Discussions of Islam and the Ottoman Empire were thus bound up with mainstream thinking in the West on a wide range of important topics. These Eastern enemies were not just there to be denounced. They were there to be made use of, in arguments which contributed significantly to the development of Western political thought.

The Temptation to Exist E. M. Cioran,2013-02-01 This collection of eleven essays originally appeared in France thirty

years ago and created a literary whirlwind on the Left Bank. Cioran writes incisively about Western civilizations, the writer, the novel, mystics, apostles, and philosophers. The Temptation to Exist first introduced this brilliant European thinker twenty years ago to American readers, in a superb translation by Richard Howard. This literary mystique around Cioran continues to grow, and The Temptation to Exist has become an underground classic. In this work Cioran writes about Western civilizations, the writer, the novel, about mystics, apostles, philosophers. For those to whom the very word philosophy brings visions of arduous reading, be assured: Cioran is crystal-clear, his style quotable and aphoristic. "A sort of final philosopher of the Western world. His statements have the compression of poetry and the audacity of cosmic clowning"—The Washington Post

Kanuni i Lekë Dukagjinit Lekë Dukagjini,1989 THE CODE OF LEKE DUKAGJINI is a great cultural treasure, comparable to the chapters of The Old Testament. It provides deep insights into the ancient society of the Albanians, their somber dignity & their magnificent sense of honor.--David Binder, The New York Times. This legal system was established & passed on to future generations as a common law by Leke Dukagjini, a co-fighter of the legendary Skenderbeg. The 'Besa' or the 'word of honor' as stated in THE CODE OF LEKE DUKAGJINI which means peace & protection to those whom it is given, has become today an important fighting tool in the political struggle of Kosovo's Albanians against Serb oppression.--Victor Meier, The Frankfurter Allgemeine Zeitung. The legal Code of the Albanians known by them for a thousand years, is one of the most original in the history of mankind. Among the basic pillars of this code are the equality of men before the code & the non-abuse of justice. The entire essence of the legal code of the Albanians is an unparalleled rigorous respect for this basic principle: non-violation of the dignity of a man- his honor, home, & life.--Ismail Kadare, Albanian writer.

Sourcebook on Criminal Law Michael T. Molan, 2001 The second edition of the Criminal Law Sourcebook has been significantly expanded in order to provide law students with a comprehensive selection of key materials drawn from law reports, statutes, Law Commission Consultation Papers and Reports, and Home Office publications. The materials reflect the range of topics taught on the vast majority of undergraduate and CPE criminal law modules, and provide a platform from which the reader can embark upon a more critical evaluation of both theory and doctrine. Extensive extracts are included from a number of recent landmark rulings, including decisions by the House of Lords in *B v DPP* (defence of mistake), *R v Smith* (objective test for the defence of provocation), *R v Hinks* (whether the recipient of a gift can be a thief), and *R v Powell and Daniels*; *R v English* (scope of accessory liability for murder), and the Court of Appeal's ruling in *In Re A* (conjoined twins). Recent statutory initiatives that have been incorporated include the Protection from Harassment Act 1997, the Criminal Justice (Terrorism and Conspiracy) Act 1998, and the Sexual Offences (Amendment) Act 2000. The impact of the Human Rights Act 1998, in so far as it relates to substantive criminal law, is also covered. Substantial extracts are provided from all relevant Law Commission and Home Office law reform publications. In addition to the draft Criminal Code Bill, materials have been selected dealing with reform of sexual offences, consent, conspiracy to defraud, deception offences, offences against the person, accessory liability and involuntary manslaughter.

Designing the School Curriculum Peter S. Hlebowitsh, 2005 Designing the School Curriculum takes a practical, step-by-step approach, giving students the thorough grounding in the process that leads to confident and effective practitioners. The author emphasizes the discretionary judgment of the individual teacher and acknowledges that the curriculum design process is completed only in the unique and spontaneous learning exchanges between students and teachers. Practical ideas on the formation of school purposes, the design of school-wide experiences, effective implementation, and the creation of responsive evaluative mechanisms help students to fulfill the goal of the text to design an authentic and effective curriculum. After an introductory chapter examining the role of the teacher in the design process and two brisk chapters leading students

through the theoretical foundations of curriculum development, the text launches into the curriculum design process, giving a close look to each element. Hlebowitsh makes a valuable contribution to the field with this new text, offering a contemporary treatment of classic curriculum design theory and, most importantly, equipping students to engage in effective curriculum design themselves.

The Tribes of Albania Robert Elsie, 2015-04-24 Northern Albania and Montenegro are the only regions in Europe to have retained a true tribal society up to the mid-twentieth century. This book provides the first scholarly investigation of this tribal society, a pioneer work that offers a detailed survey of all the major Albanian-speaking tribes in Albania, Montenegro and Kosovo. Robert Elsie provides comprehensive material on the 69 different tribes, including data on their locations, religious affiliations, tribal structures and relations, population statistics, tribal folklore, legends and history. Also included are excerpts from the works of prominent nineteenth and early-twentieth century writers, such as Edith Durham and Johann Georg von Hahn, who travelled through the tribal regions, as well as short biographies on prominent figures linked to the tribes. As the first book of its kind, *The Tribes of Albania* will be of interest to scholars and students of the Balkans, of southeastern European anthropology, ethnography and history.

The European Union Kristin Archick, 2018-12-04 The European Union (EU) is a unique partnership in which member states have pooled sovereignty in certain policy areas and harmonized laws on a wide range of economic and political issues. The EU is the latest stage in a process of European integration begun after World War II, initially by six Western European countries, to promote peace, security, and economic development. The EU currently consists of 28 member states, including most of the formerly communist countries of Central and Eastern Europe. The EU is largely viewed as a cornerstone of European stability and prosperity. For much of the last decade, however, many EU countries have faced considerable economic difficulties. Despite an improved economic situation in the EU since 2017, economic pressures and societal changes have contributed to the rise of populist and antiestablishment political parties, at least some of which harbor anti-EU or euroskeptic sentiments. Such trends have complicated the EU's ability to deal with multiple internal and external challenges. Among the most prominent challenges are the pending departure of the United Kingdom (UK) from the EU (Brexit); democracy and rule-of-law concerns in Poland, Hungary, and other EU members; migration and related societal integration concerns; a resurgent Russia; and a heightened terrorism threat. Amid these difficult issues, some are questioning the future shape and character of the EU are being. Supporters of the EU worry that some aspects of EU integration could be stopped or reversed. Others contend that the multiple crises could produce some beneficial reforms that ultimately would transform the EU into a more effective, cohesive entity. Recently, considerable attention has focused on developing a multispeed EU, in which some EU members could pursue greater integration in specified areas and others could opt out. Successive U.S. Administrations and many Members of Congress long have supported the European integration

project, viewing it as crucial to European peace and security and as a way to foster strong U.S. allies and trading partners. Despite some tensions over the years, the United States and the EU share a dynamic political partnership on various foreign policy issues and an extensive trade and investment relationship. How the EU evolves in the years ahead may have strategic and economic repercussions for the United States. At the same time, some EU leaders are concerned about President Trump's apparent skepticism of the EU and his reported assessment of the bloc as an economic competitor. Those of this view also worry that elements of the Trump Administration's America First foreign policy-such as the U.S. decision to withdraw from the 2015 multilateral nuclear deal with Iran-pit the United States against the EU. A number of European officials and analysts question whether traditional U.S. support for close U.S.-EU relations may be shifting and whether the United States will remain a reliable international partner. Some observers suggest that managing relations with the United States under the Trump Administration has emerged as another, somewhat unexpected, challenge for the EU. At the same time, many in the EU hope to preserve close U.S.-EU ties and EU policymakers continue to seek to cooperate with the Trump Administration where possible on issues of common interest and concern. This report provides a brief history of the EU and the major challenges confronting the bloc. It also discusses the potential implications for the EU and for U.S.-EU relations.

Economic Effects of Globalization John-ren Chen,1998 The book provides a blend of informal discussion and rigorous analysis of globalization. The contributions encompass political, public finance and social effects of globalization and their theoretical and statistical analysis.

Roots of Synthetic Theology in Islam Mustafa Cerić,1995 This work is an analysis of one of the greatest (and largely forgotten) early Muslim theologians, Abu Mansur Muhammad ibn Muhammad ibn Mahmud al-Hanafi al-Mutakallim al-Maturidi al-Samarqandi (d. 333/944). It establishes evidence of al-Maturidi's profound influence upon Islamic theology during his time and discusses his method, theory of knowledge and theological ideas concerning the world, and the relation of God to man.
