Their work moves the field of Soviet history several large steps forward. —Slavic Review Lenin's New Economic Policy of the 1920s, although a relatively free and open potential alternative to Soviet communism, was also a time of extreme tension, as Russian society and culture were rocked by the forces of resistance and change. Reinventing Politics Vladimir Tismaneanu,1993 Will the nations of Eastern Europe become liberal democracies? How has more than 40 years of totalitarian rule transformed the East European psyche? How ill the emerging realities of Eastern Europe affect the rest of Europe and the world? In an effort to answer these questions, Romanian-born scholar Vladimir Tismaneanu chronicles the turbulent history of this embattled region, from the decades of Soviet domination to the momentous events leading up to and following the Revolution of 1989. He views Eastern Europe as being on the threshold of a great opportunity -- to become reunited, through pan-European arrangements, with the West, and thereby recover its truly European identity. -- From publisher's description.

Choice This volume focuses on post-World War II Romania as a case study in state socialist politics. He asserts that the current Romanian regime--and those of the other state socialist countries--can best be understood when viewed as integral elements in coherent political economies. Crowther analyzes developed national communism, placing contemporary Romania in the context of the international environment and exploring the impact of external factors on the domestic political system. Finally, he discusses the implications of the Romanian example for the study of state socialist political systems in general.

Mao Jung Chang, Jon Halliday, 2011-10-05 The most authoritative life of the Chinese leader ever written, Mao: The Unknown Story is based on a decade of research, and on interviews with many of Mao's close circle in China who have never talked before — and with virtually everyone outside China who had significant dealings with him. It is full of startling revelations, exploding the myth of the Long March, and showing a completely unknown Mao: he was not driven by idealism or ideology; his intimate and intricate relationship with Stalin went back to the 1920s, ultimately bringing him to power; he welcomed Japanese occupation of much of China; and he schemed, poisoned, and blackmailed to get his way. After Mao conquered China in 1949, his secret goal was to dominate the world. In chasing this dream he caused the deaths of 38 million people in the greatest famine in history. In all, well over 70 million Chinese perished under Mao's rule — in peacetime.

National Ideology Under Socialism Katherine Verdery, 1995-09-14 The current transformation of many Eastern European societies is impossible to understand without comprehending the intellectual struggles surrounding nationalism in the region. Anthropologist Katherine Verdery shows how the example of Romania suggests that current ethnic tensions come not from a resurrection of pre-Communist Nationalism but from the strengthening of national ideologies under Communist Party rule.
