The Meaning of Particle/prefix Constructions in German Robert B. Dewell, 2011 This is really two books in one: a valuable reference resource, and a groundbreaking case study that represents a new approach to constructional semantics. It presents a detailed descriptive survey, using extensive examples collected from the Internet, of German verb constructions in which the expressions *durch* ('through'), *über* ('over'), *unter* ('under'), and *um* ('around') occur either as inseparable verb prefixes or as separable verb particles. Based on that evidence, the author argues that the prefixed verb constructions and particle verb constructions themselves have meaning, and that this meaning involves subjective construal processes rather than objective information. The constructions prompt us to distribute focal attention according to patterns that can be articulated in terms of Talmy's notion of "perspectival modes". Among the other topics that play an important role in the analysis are incremental themes, reflexive trajectors, fictive motion, "multi-directional paths", and "accusative landmarks".

Medical Practice, 1600-1900, 2015-11-16 Drawing in particular on physicians' casebooks, *Medical Practices, 1600-1900* studies the changing nature of ordinary medical practice in early modern Europe. Combining case studies on individual German, Austrian and Swiss practitioners with a comparative analysis across the centuries, it offers the first comprehensive and systematic overview of the major aspects of premodern practitioners daily work and business - from diagnostic and therapeutic approaches and the kinds of patients treated to financial issues, record keeping and their place in contemporary society.

Lords of the Earth Don Richardson, 2008-08-01 Engulfed in the darkness of Irian Jaya's Snow Mountains live the Yali, naked cannibals who call themselves lords of the earth. Yet, in spite of their boldness, they live in terror and bondage to the women-hating, child-despising gods they serve. Missionary Stan Dale dared to enter their domain and be an instrument to change their future. Peace Child author, Don Richardson, tells the story of Dale, his wife, his companions, and thousands of Yali tribesmen in *Lords of the Earth*. This unforgettable tale of faithful determination and zeal against overwhelming odds brings unlikely characters together in a swirl of agony and bloodshed climaxing in a dramatic, unexpected ending. Readers will find their perceptions of how God moves enlarged and inspired by this classic story. For parents and youth leaders looking for real-life role models for the new generation of young people, you will want to meet the Dales in *Lords of the Earth*.

Why Loiter? Shilpa Phadke, Sameera Khan, Shilpa Ranade, 2011 Presenting an original take on women's safety in the cities of twenty-first century India, *Why Loiter?* maps the exclusions and negotiations that women from different classes and communities encounter in the nation's urban public spaces. Basing this book on more than three years of research in Mumbai, Shilpa Phadke, Sameera Khan and Shilpa Ranade argue that though women's access to urban public space has increased, they still do not have an equal claim to public space in the city. And they raise the question: can women's access to public space be viewed in isolation from that of other marginal groups? Going beyond the problem of the real and implied risks associated with women's presence in public, they draw from feminist theory to argue that only by celebrating loitering—a radical act for most Indian women—can a truly equal, global city be created.

Hidden Hunger H.K. Biesalski, R.E. Black, B. Koletzko, 2016-05-24 Malnutrition caused by deficiencies of vitamins and minerals - also called hidden hunger - impairs both the intellectual and physical development of a child. Due to the absence of clinical symptoms and assessments, no intervention can be staged. The tragedy is that this, in turn, decreases the child's chance to escape from poverty. This book looks at malnutrition in high-income countries, the nutrition transition and nutritional deficiencies in low-income countries, consequences of hidden hunger, and interventions to improve nutrition

security. Written by leading experts in the field, it clearly stresses that national governments and international organizations must make malnutrition one of their top priorities in order to provide children with optimal conditions for a healthy future.

A Mind Unraveled Kurt Eichenwald, 2019-10-15 The compelling story of an acclaimed journalist and New York Times bestselling author's ongoing struggle with epilepsy—how, through personal resilience and the support of loved ones, he overcame medical incompetence and institutional discrimination to achieve once unthinkable success. With a new afterword

- “REMARKABLE . . . inspirational in the true sense of the word.”—The New York Times Book Review This is the story of one man's battle to pursue his dreams despite an often incapacitating brain disorder. From his early experiences of fear and denial to his exasperating search for treatment, Kurt Eichenwald provides a deeply candid account of his years facing this misunderstood and often stigmatized condition. He details his encounters with the doctors whose negligence could have killed him, but for the heroic actions of a brilliant neurologist and the family and friends who fought for him. Ultimately, *A Mind Unraveled* is an inspirational story, one that chronicles how Eichenwald, faced often with his own mortality, transformed trauma into a guide for reaching the future he desired. Praise for *A Mind Unraveled* “An intimate journey . . . bravely illuminating the trials of living inside a body always poised to betray itself.”—O: The Oprah Magazine “Poignant and infuriating . . . merges elements of medical drama, anti-discrimination fable, and coming-of-age memoir.”—The New Yorker “One of the best thrillers I've read in years, yet there are no detectives, no corpses, no guns or knives.”—Minneapolis Star-Tribune “Terrific . . . Eichenwald's narrative is a suspenseful medical thriller about a condition that makes everyday life a mine field, a fierce indictment of a callous medical establishment, and an against-the-odds recovery saga.”—Publishers Weekly (starred review) “Riveting . . . Eichenwald has created a universal tale of resilience wrapped in a primal scream against the far-too-savage world.—Booklist (starred review) “An extraordinary book.”—Harriet Lerner, Ph.D., New York Times bestselling author of *The Dance of Anger*

The Mekong Delta System Fabrice G. Renaud, Claudia Kuenzer, 2012-06-01 This book about the Mekong Delta presents a unique collection of state-of-the-art contributions by international experts from different scientific disciplines about the characteristics and pressing water-related challenges of the Mekong Delta in Vietnam. The Mekong Delta belongs to one of the areas, which are to expect the largest challenges concerning environmental change and climate change induced sea level rise . The Delta acts as the “rice bowl” of Southeast Asia and is home to over 17 Million people, who need to cope with ecologic as well as socio-economic changes linked to the rapid economic development of the country. Annual floods, severe droughts, salt water intrusion, degrading water quality, tropical cyclones, hydrologic changes due to hydropower projects in the upstream of the Mekong, coastal erosion, and the loss of biodiversity are some of the problems in the region. Heterogeneous resource management responsibilities, and the fact that the Mekong - and thus also the Delta - is influenced by six countries aggravate the situation. Integrated water resources management and fostered cooperation and information

exchange are pressing needs for the sustainable development of the Delta.

Global Change and the Earth System Will Steffen, Regina Angelina Sanderson, Peter D. Tyson, Jill Jäger, Pamela A. The results presented here are based on 10 years of research on global change by many of the world's most eminent scholars. This valuable volume achieves a new level of integration and interdisciplinarity in treating global change.

Introduction to Food- and Airborne Fungi Robert A. Samson, 2000 The increasing interest among microbiologists in fungal contaminants of food and air has created the need to study these micro-organisms in more detail. Although fungi, producing toxins or which cause health hazards, are ubiquitous and belong to the common contamination flora, their recognition is hampered by incomplete and often confusing literature. This book, published by the Centraalbureau voor Schimmelcultures in the Netherlands and now available from ASM Press, serves as a guide to food- and airborne fungi and contains keys and morphological descriptions of the most common species.

New Geographies of Race and Racism Caroline Bressey, 2016-04-29 In recent years geographers interested in ethnicity, 'race' and racism have extended their focus from examining geographies of segregation and racism to exploring cultural politics, social practice and everyday geographies of identity and experience. This edited collection illustrates this new work and includes research on youth and new ethnicities; the contested politics of 'race' and racism; intersections of ethnicity, religion and 'race' and the theorisation and interrogation of whiteness. Case studies from the UK and Ireland focus on the intersections of 'race' and nation and the specificities of place in discourses of racilisation and identity. A key feature of the book is its engagement with a range of methodological approaches to examining the significance of race including ethnography, visual methodologies and historical analysis.

Liquid Reign Karl-Heinz Hasliprinz, Tim Reutemann, 2018-05-06 Liquid Reign is a work of speculative fiction, imagineering a fairly liveable future in 2051, neither dys- nor utopian. Melting the boundaries between science and fiction into a novel format, each chapter provides links to the sources of inspiration influencing it - ranging from Jean Jacques Rousseau's social contract of 1762 to blockchain startups from 2018. A vertiginous rollercoaster of ideas and a unique take on the future of (un)governance, delivered with irrepressible, unruly energy. - Jamie King of the Pirates, Host Steal this Show Tim Reutemann has become one of my favorite big brain boys over the past few months. In his book Liquid Reign he explores the future of democracy and civics in a way I have never seen done before... - TheBurgerkrieg, Edgy Youtuber Liquid Reign is a SciFi Novel about technology and our future and AI an all sorts of awesome shit and how it's gonna affect our world- Jarred PiG Krensel, Ex Pro-Starcraft Player and e-Sports commentator Wooow, what a reading experience - truly immersive! A world with liquid democracy, artificial intelligence, universal basic income and a limit on wealth accumulation. After you've read the book, you have a feeling of a possible future. - Raphel Fasko, Mastermind of the Circular Economy

Disgust Winfried Menninghaus, 2012-02-01 Disgust (Ekel, dégoût) is a state of high alert. It acutely says no to a variety of phenomena that seemingly threaten the integrity of the self, if not its very existence. A counterpart to the feelings of appetite, desire, and love, it allows at the same time for an acting out of hidden impulses and libidinal drives. In Disgust, Winfried Menninghaus provides a comprehensive account of the significance of this forceful emotion in philosophy, aesthetics, literature, the arts, psychoanalysis, and theory of culture from the eighteenth century to the present. Topics addressed include the role of disgust as both a cognitive and moral organon in Kant and Nietzsche; the history of the imagination of the rotting corpse; the counter-cathexis of the disgusting in Romantic poetics and its modernist appeal ever since; the affinities of disgust and laughter and the analogies of vomiting and writing; the foundation of Freudian psychoanalysis in a theory of disgusting pleasures and practices; the association of disgusting otherness with truth and the trans-symbolic real in Bataille, Sartre, and Kristeva; Kafka's self-representation as an Angel of disgusting smells and acts, concealed in a writerly stance of uncompromising purity; and recent debates on Abject Art.
